#### Survey updates:

- Request for faculty email lists from H.R. resulted in requests for further review of the survey
- Issues we are being asked to address:
  - Definition of hybrid –should also include hybrid courses delivered via Ecampus.
  - Include “hybrid courses delivered via Ecampus” in our list of course types (not doing so means the survey is not inclusive to all faculty; programs with this class type are growing)
  - Add the following to our list of “issues of importance in training and professional development”:
    - Engaging students in online environments
    - Using data and learning analytics to support student success
    - The scholarship of teaching and learning in relation to online and hybrid teaching
    - Pedagogy basics for online teaching and learning
    - Managing collaborative learning in online and hybrid courses
    - Managing larger class sizes in online and hybrid courses
