 - The Graduate Council is asked to comment on the following Catalog Year Policy

Course changes, program changes, and program deactivations go into effect the following catalog year. May 1 is the deadline for final approvals for proposals to change courses or to alter or end programs. Those changes approved after the May 1 deadline become effective the catalog year following the upcoming catalog year. For example, a change approved on May 15, 2020 becomes effective in the 2021-2022 catalog year. New courses and programs become effective the first term following their approval for which the seventh week of the current term has not yet begun, unless the specified start date of the course/program is later than the subsequent term.
