CANDIDATE STATEMENT: As a first-generation college student, spouse of a 20-year career veteran, graduate of OSU's English Department (class of '92), and member of the Ecampus leadership team, I am always looking for new ways to contribute to OSU's access mission. I have a passion for working with faculty to improve the student learning experience, have experienced firsthand the transformational power of higher education and have great respect for faculty governance systems. I hope to contribute my experience and hard work for the benefit of the Faculty Senate for OSU students.
